Media Release

Sets New Monthly Dispatch Record of 1350 Metric Tons in September, 2024

Completes Adoption of New Technology, Shifts Focus to Higher-Weight Products

Mohali, 04th October, 2024: Pritika Engineering Components Limited (NSE: PRITIKA), established player in casting, catering to OEMs within the Tractor and Commercial Vehicle segments, is pleased to announce highest ever monthly dispatch, reaching an impressive 1350 metric tons in September, 2024.

Following the successful adoption of new technology, PECL has shifted its focus towards higher-weight products which fetch relatively higher margin. The trial batches produced using this advanced technology have been well received by Original Equipment Manufacturers (OEMs), leading to the commencement of commercial production. This achievement underscores PECL's ability to adapt to market demands and deliver high-quality products.

Looking ahead, the demand outlook for Pritika Engineering Components Limited remains strong. The Company is confident in its ability to leverage the new technology to enhance its production capabilities and meet the evolving needs of its customers.

Management Comment:

Commenting on this development, Mr. Harpreet Singh Nibber, Managing Director, Pritika Engineering Components Limited said:

"We are glad to announce a record monthly dispatch of 1350 metric tons in September, 2024.

The successful implementation of new technology not only enhances our production efficiency but also allows us to diversify our product offerings to meet market demands. Our focus on higher-weight products aligns with industry trends, and these products also yield better margins. The strong demand outlook reinforces our confidence in our growth strategy and our ability to deliver exceptional value to our customers.

This milestone is a testament of our dedication towards growth and excellence. I thank and congratulate our entire team for this momentous achievement."
